

28th Feb 2026

Inauguration of Hamara Grid Training Centre for Entrepreneurship and Skill Development, Mon District Nagaland

Increasing village incomes is central to Hamara Grid's 'Rural Development through Mini-grids' Project. As incomes grow village communities climb the energy ladder faster. Technology, Access to Finance and Training on productive machines / microbusiness models are the pillars for building the village ecosystem for income growth.

Hamara Grid joined hands with Caterpillar Inc., Assist International and District Administration of Mon District to establish a Centre for Entrepreneurship and Skill Development at Totok Chingnyu village that that will train over 100 entrepreneurs a year in technical skills, women-centric skills, agri-processing and livelihoods.

The Training Centre with infrastructure for residential training of 15 trainees was inaugurated at Totok Chingnyu village by the Deputy Commissioner of Mon District on 28 February 2026.
